INTRODUCTION

We (the Masar team) have worked to present important educational content in an engaging format, utilizing the graphic design and information programs we learned over a six-month journey.

Now you can see the fruits of our labor: a project that educates consumers about their rights regarding any product sold to them, through the Consumer Protection Agency.

Why the Consumer Protection Agency?

The Egyptian citizen faces multiple **challenges** daily, including commercial fraud, unfair prices, and poor-quality products.

Therefore, the **Consumer Protection Agency** is the body responsible for protecting these rights.

PROJECT AIMS

Awareness

By raising consumer awareness through the Consumer Protection Agency and making them aware of their rights and responsibilities.

Protection

Protecting the consumer from any potential fraud or damage to items before the end of their warranty period, etc.

01

02

03

Restoration of Rights

By knowing his rights and responsibilities, the consumer can understand how to claim them.

Project Target

Actual protection

Educating consumers on how to contact the Consumer Protection Agency.

Restoration of rights

Enabling citizens to take the right steps to reclaim their rights.

Raising awareness

Educating consumers about their legally guaranteed rights through visually appealing and easy-to-understand content.

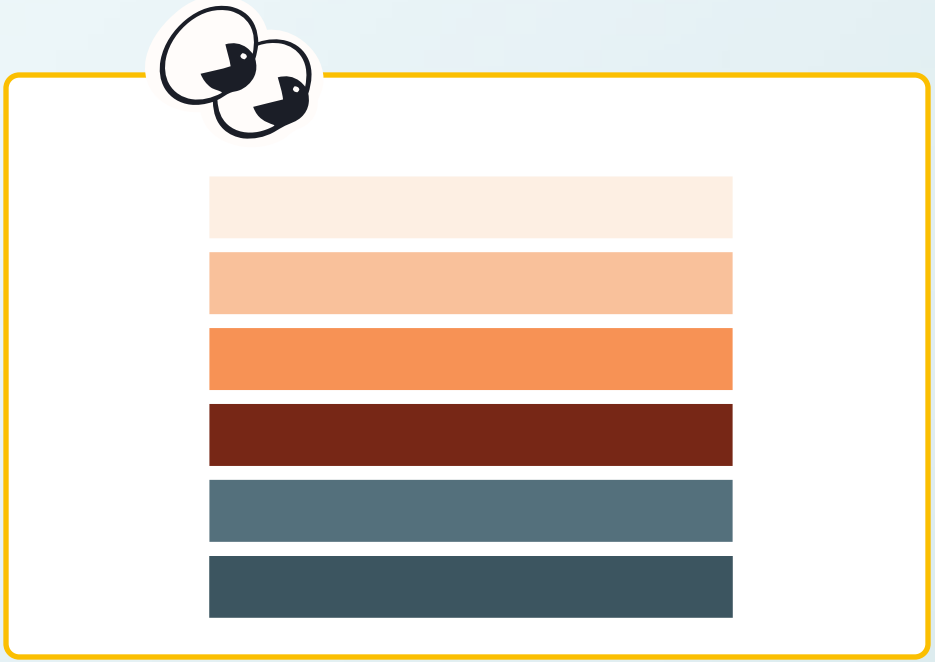
Project implementation phases

A complete creative journey from idea to production

Planning and coordination	Through regular meetings via Google Teams, we will distribute tasks and refine the creative vision.
Scriptwriting	We will craft professional text that conveys the message in a clear and simple way.
Scene and character design	We will design scenes and characters using all the software we learned during the grant.
Voiceover recording	We will produce professional audio recordings that enhance the visual content and clarify the message.
Motion and directing	We will animate all elements and characters using the software we learned during the grant.

Tools used in production

COLOR PALLETE



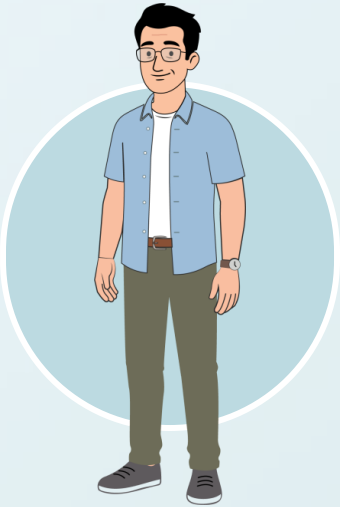
OUR MAIN CHARACTERS

NOUR

Nour is a 28-year-old wife who is organized and takes good care of her home and belongings.

WASHING MACHINE

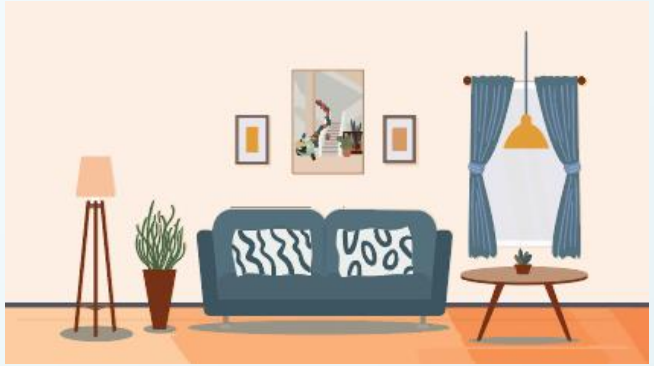
The washing machine is new, from a well-known and trusted company, and has been used for two years.

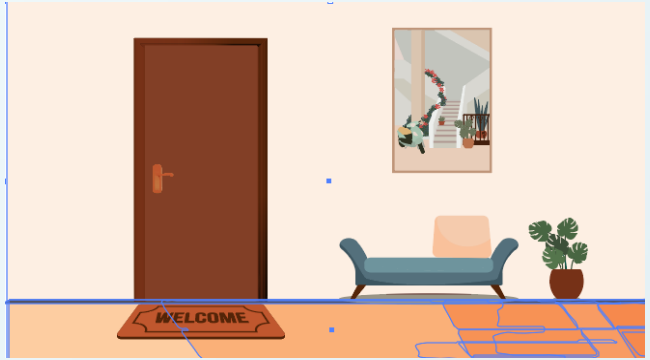


MAHMOUD

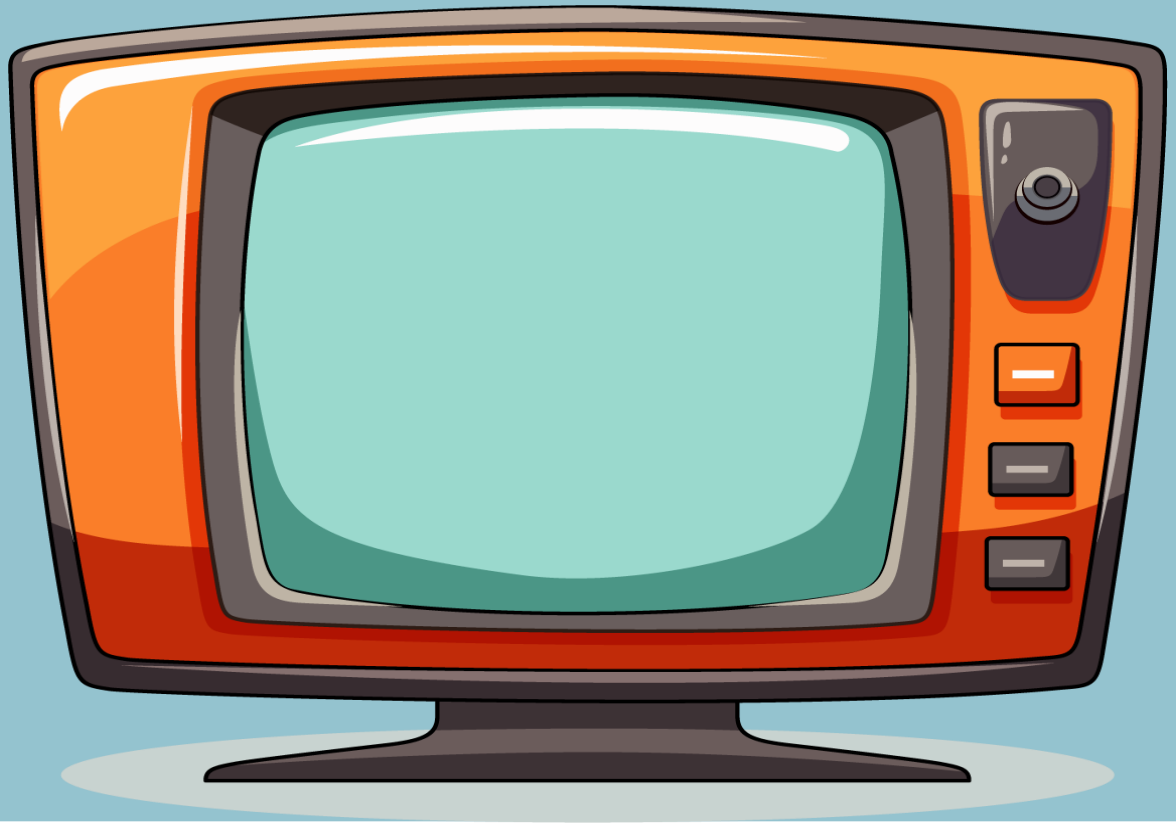
Mahmoud is a 30-year-old husband with an organized personality.

SCENES





OUR PROJECT



Thanks

The Masar team extends its deepest thanks and gratitude to

Eng/ Mohamed Mansour

Ali for his valuable guidance and continuous support throughout the project.

The Digital Pioneers of Egypt initiative management

is committed to providing this exceptional opportunity to develop Egyptian digital talent.

Yat Company

For the support and sponsorship that contributed to the success of this initiative.
